

World History: AMI Days Six Through Ten

Follow your unit seven calendar for any AMI days starting immediately. This includes AMI days three through five.

Example: if we start AMI and you have just finished your research sheet for the writing project, start on the outline for the writing. If we continue to use AMI days keep working on the writing and finish it in the appropriate amount of days. If, after the writing project is done (according to the calendar) we are still under AMI continue on to the next research sheet and project as we have been.
