

# Opening

5-10 min

# Compare and Contrast the location, climate, and natural resources of United Kingdom and Russia

## Unit 2: Lesson 2

# Standard and Element

- **SS6G10 The student will explain the impact of location, climate, natural resources, and population distribution on Europe.**
- A. Compare how the location, climate, and natural resources of the United Kingdom and Russia affect where people live and how they trade.

# Teaching

10-20 Min

# Great Britain: Positives

- Reasons why it is a powerful nation:
  - Great Britain has good Natural Resources
    - Some examples are Coal, Natural Gas, Oil

# Great Britain: Positives

- Great Britain is a very wealthy country

# Great Britain: Positives

- Island, not a part of mainland Europe
  - Because it is an island it was not easily invaded in the past.
  - Great Britain also developed a spectacular navy because it had to trade using ships.

# Great Britain: Positives

- Great Britain is a Developed and industrialized nation with people who are well educated and relatively wealthy compared to the rest of the world.

# Great Britain: Positives

- Great Britain has a temperate climate that is favorable for agriculture.
  - Temperate: not too hot and not too cold

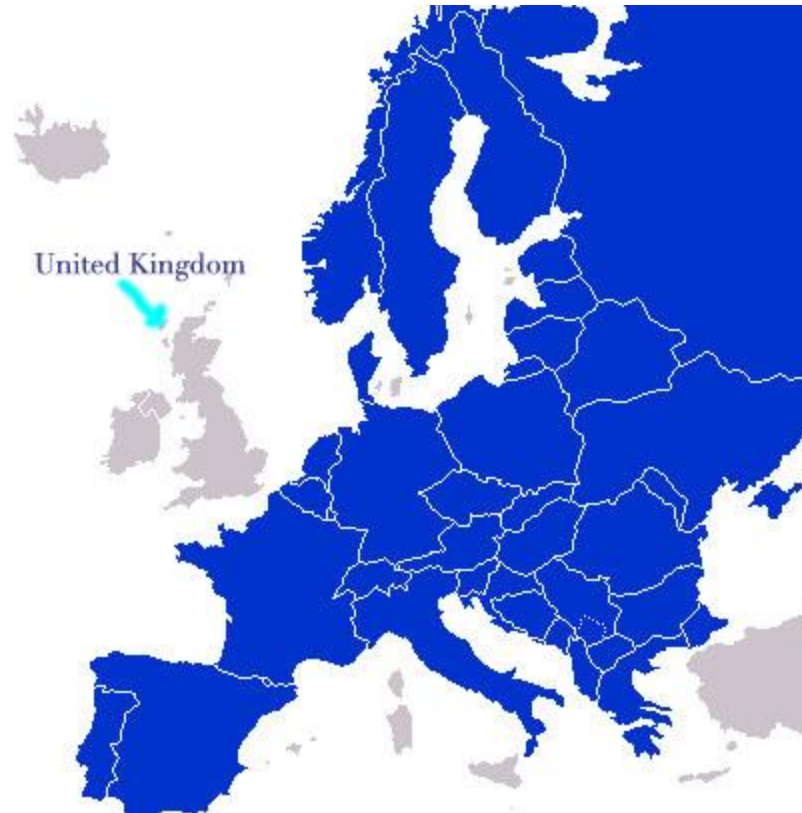

# Great Britain: Positives

- Great Britain has many harbors and inland rivers
  - The rivers and harbors make it easy to ship goods across the world
  - Fishing is also a significant resource for the country.

# Great Britain: Negatives

- Great Britain is small compared to the rest of Europe

# Great Britain: Negatives

- Great Britain has a limited supply of resources such as trees and minerals because it is so small.
- Great Britain is also over populated compared to many other parts of the world.

# Russia: Positives

- Russia is the largest country in the world

# Russia: Positives

- Russia has large forests that produce a great amount of paper and lumber.

# Russia: Positives

- Russia has many natural resources because of it's large size.
  - One of the natural resources that are most profitable is oil.

# Russia: Positives

- Russia has many factories.
  - Many of the factories produce steel and iron products sold around the world.

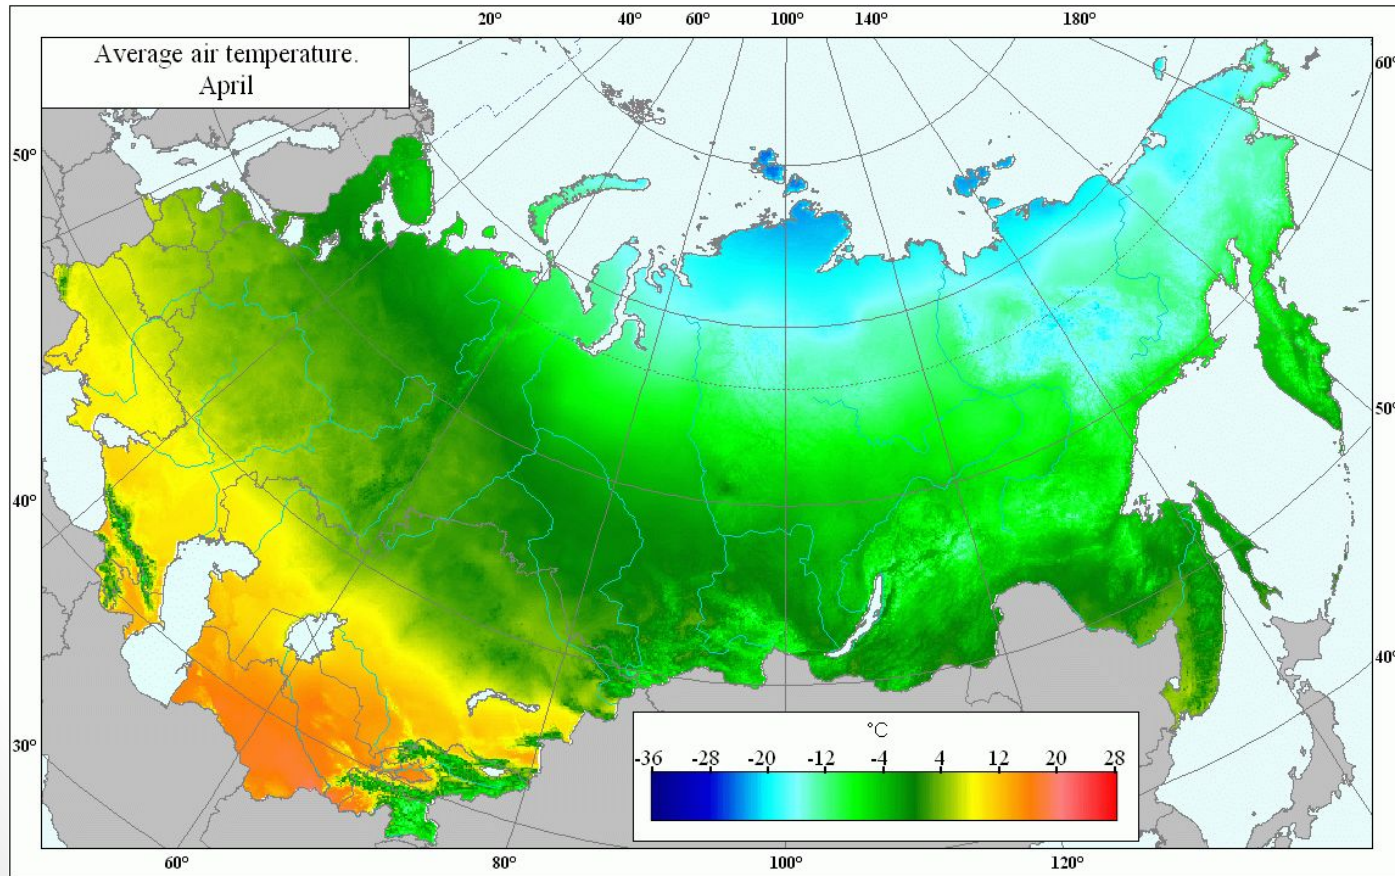

# Russia: Positives

- Fishing is also an important natural resources in Russia.
- Russia can reach both the pacific, Atlantic, and Artic oceans from it's ports

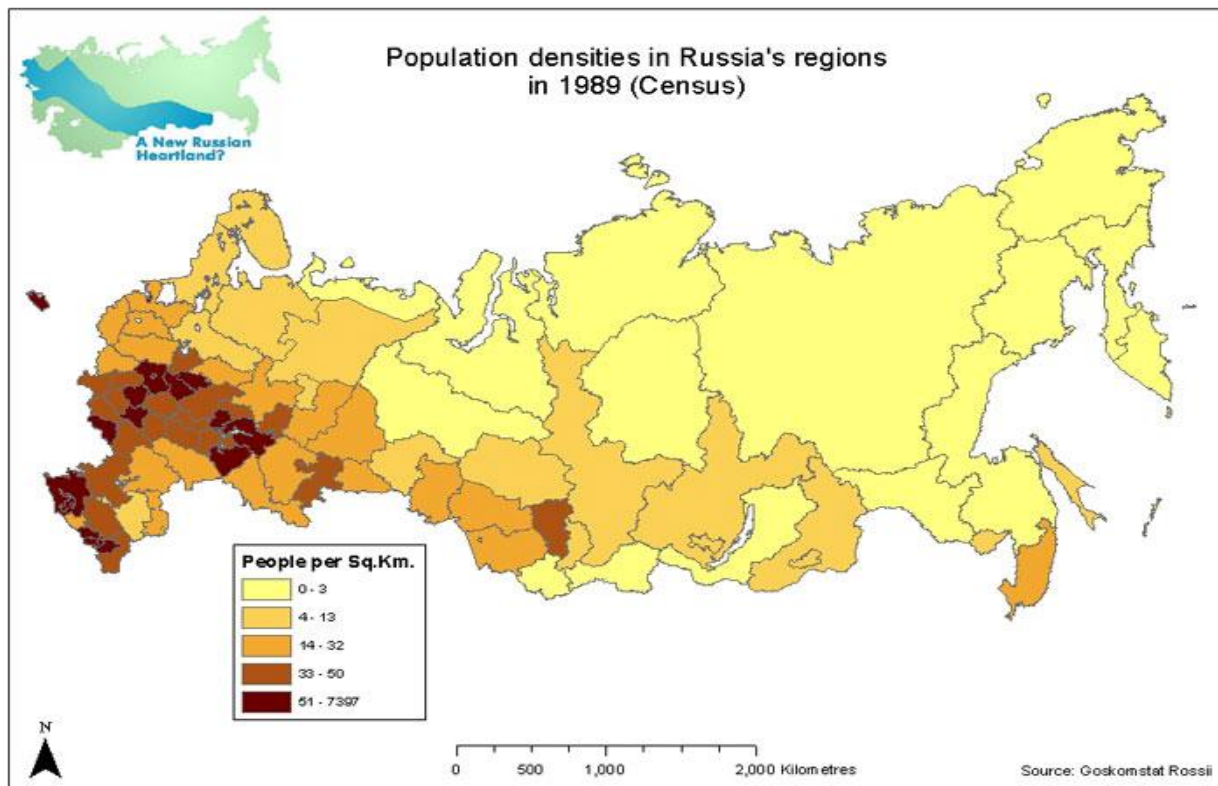

# Russia: Negatives

- Most of Russia is frozen most of the year.

# Russia: Negatives

- Russia has a large population but they have a lot of room for all the people

# Russia: Negatives

- Russia's seaports are frozen most of the year.

# Compare and Contrast of Russia and the United Kingdom

- Russia has much more land than the United Kingdom

# Compare and Contrast of Russia and the United Kingdom

- The United Kingdom has more ports than Russia because the United Kingdom is an island.
- The United Kingdom's ports are more favorable because they are not frozen over.

# Compare and Contrast of Russia and the United Kingdom

- The United Kingdom can grow more crops year round because it is located on the Gulf Stream

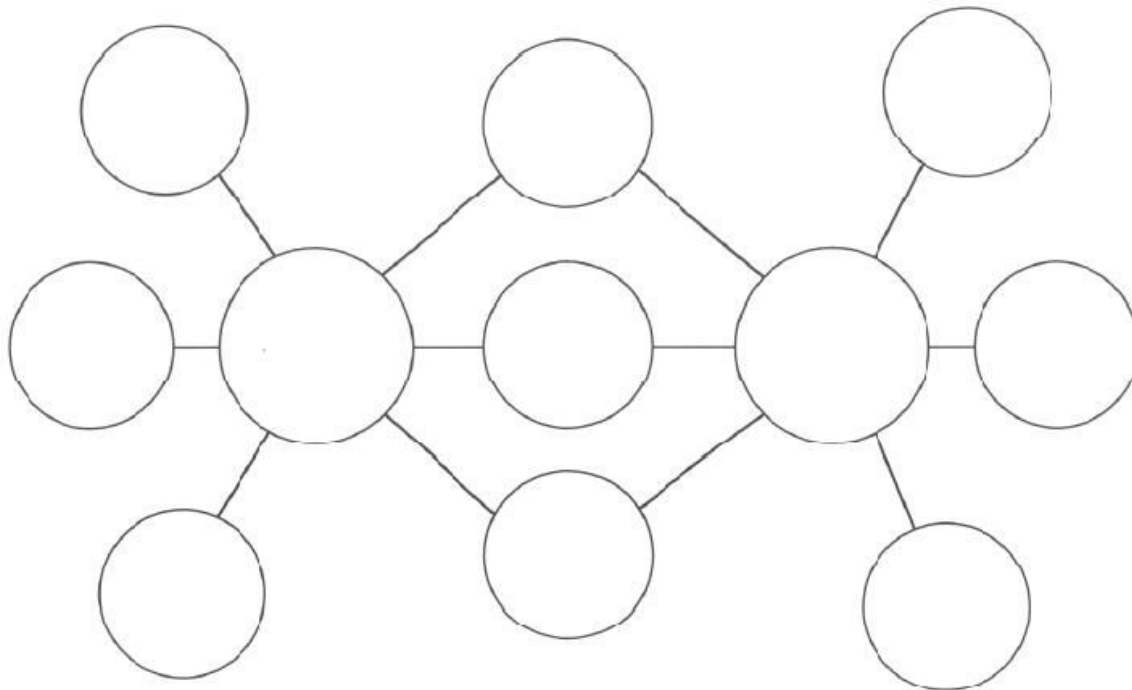

# Work Session

10-20 Min

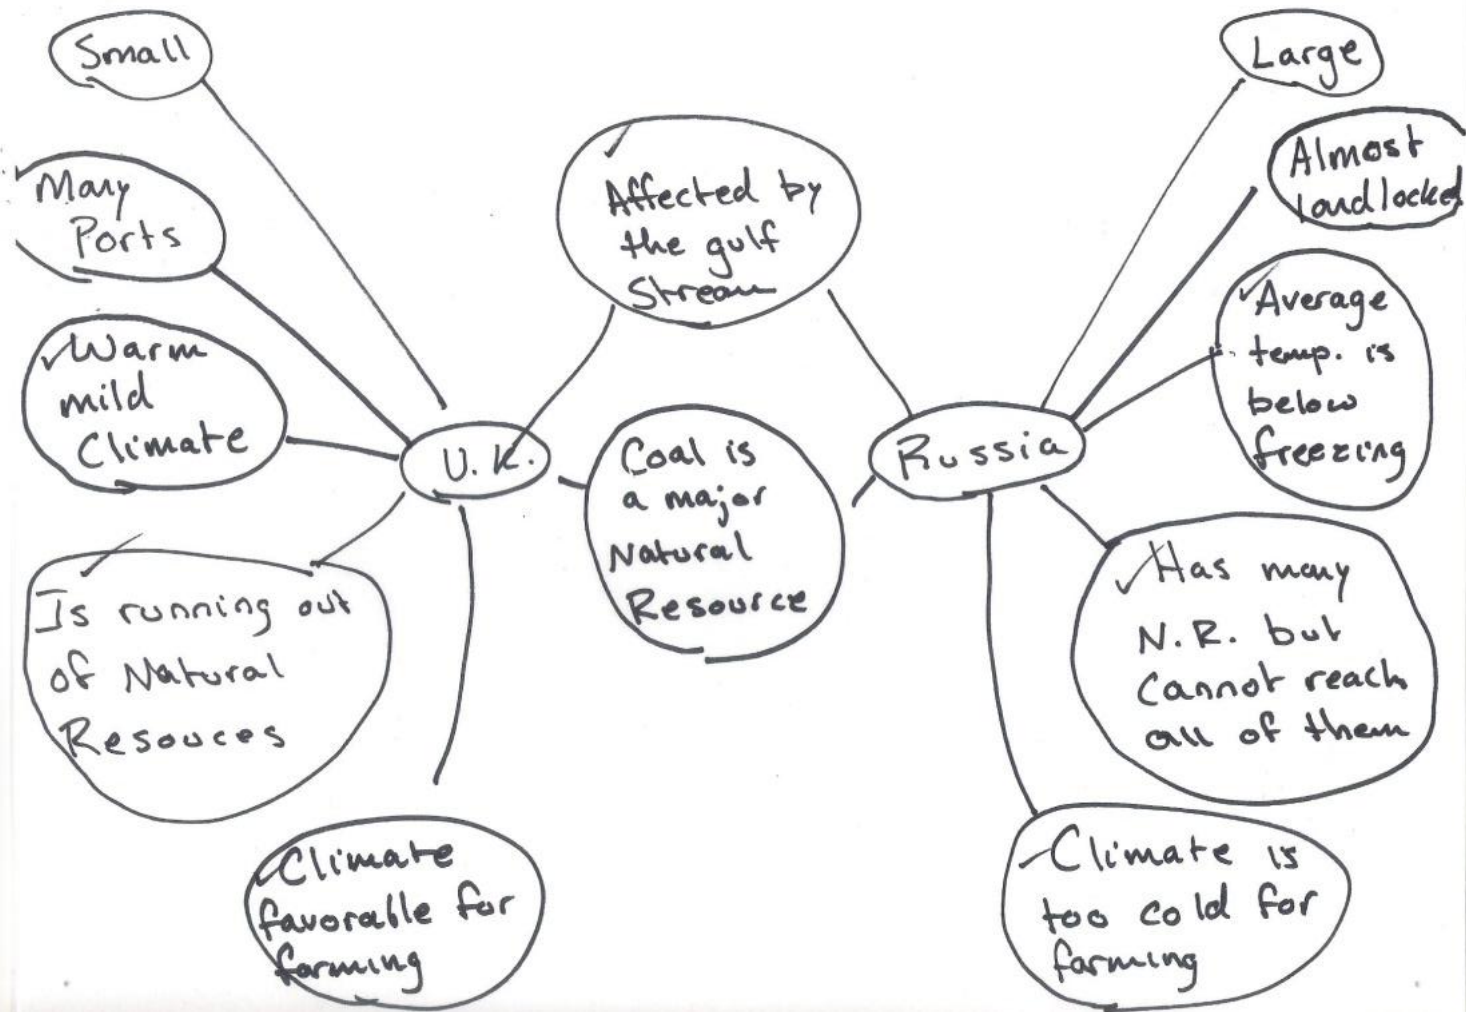

# Make a double bubble

- Make a double bubble map showing the similarities and differences between Russia and the United Kingdom.

# Strong Work

# Weak Work
