

# BEON II

## ADJUSTIBLE BODY WORN SURVEILLANCE CAMERA

### Product Description

Based on the original BEON Body Camera, the BEON II provides added flexibility with a tilt/swivel camera lens. The BEON series of body worn surveillance cameras provide military, law enforcement, and private safety sector personnel the ability to capture important, unexpected and/or ongoing incidents. Date, time, and user credentials are encrypted and can be played back on the unit's LCD screen.
