

# READY2WORK

## ADDRESSING THE NEEDS OF LOCAL EMPLOYERS NOW AND IN THE FUTURE.

Local human resource professionals have partnered with Arkansas State University Mountain Home to identify the employability skills needed for all

employees, no matter where they work. The result is the creation of a Ready2Work curriculum that is imbedded in all Business, Computer Information Systems, and Technical Center programs.

*Employers in every industry need employees with certain fundamental skills. These include a strong work ethic, dependability, communication, critical thinking, and teamwork.*

**READY2WORK IS A PARTNERSHIP** between ASU Mountain Home and local business and industry. ASUMH holds students accountable to the strict requirements of the Ready2Work program. Only students who successfully fulfill all the requirements receive the Ready2Work Employability Certificate.

Employers who participate in the program agree to interview any applicant who presents the Ready2Work Employability Certificate and is qualified for a current opening within the company.

## EMPLOYABILITY SKILLS

- Adaptability
- Teamwork
- Initiative
- Dependability and Reliability
- Integrity
- Respect
- Professionalism
- Communication
- Critical Thinking/Problem Solving
