Questions_&_Comments: Tom Embach: Ref. Jeanette Edison A word of thanks, you and the entire team were great the way you all jumped in with the flooding issue we had yesterday at 2005 Superior Way. You and the work crew were most helpful in stopping a problem from turning into a disaster when the plumbing let loose under our kitchen sink / island. The guys were great about getting the water shut off and removing the water that was flooding our unit. Jeanette, you were most helpful in contacting the related vendors and service people for quick follow through. Thank you! Dale Doman 2005 Superior Way
