TUITION AND MANDATORY FEES are:

- Determined based upon the number of expected hours enrolled.
- Determined based upon the ASUMH schedule of tuition and mandatory fees. Click [here](#) for the ASUMH Schedule.
- Not fees for specific courses or programs. If an over award occurs, these additional fees can be used to increase the Cost of Attendance on a case by case basis through professional judgment to reduce or eliminate the over award.
- Different based upon being charged as an Arkansas Resident or Out of State.
- Reviewed and adjusted annually if tuition and mandatory fees increase.

ROOM AND BOARD (Housing and Food) are:

- Estimates based upon research conducted to determine the average cost of area housing (Room), Utilities, such as for water, waste, trash, and electricity, and food/meals (Board) for a given time frame, usually monthly.
- Different for students living with parents versus not living with parents (off campus).
- Reviewed and adjusted annually, if warranted.

BOOKS AND SUPPLIES (Books Course Materials Supplies and Equipment) are:

- Estimates based upon research conducted to determine the average cost of required books and required supplies for a given semester or semesters.
- Different for students in different number of courses.
- Reviewed and adjusted annually, if warranted.

TRANSPORTATION is:

- An estimate based upon research conducted to determine the average cost of fuel and automobile insurance necessary for the average ASUMH student to commute back and forth to campus for participation in their education for a given semester or semesters.
- Not the cost for purchase of a vehicle in any way.
- Different for students in different number of courses.
- Reviewed and adjusted annually, if warranted.

MISCELLANEOUS PERSONAL EXPENSES is:

- An estimate based upon research conducted to determine the average cost of apparel, internet access, and telephone access.
- Different for students in different number of courses.
- Reviewed and adjusted annually, if warranted.

OFF CAMPUS versus **WITH PARENTS**:

- Students are asked on the FAFSA about their expected living arrangements while in college, which determines the average costs associated with room and board expenses.
- Students living with parents have much less costs because most of their room and board costs are carried by their parent(s).

OTHER COSTS:

- Some other costs, such as childcare or the purchase of a computer, associated with attending college may be considered on a case by case basis through professional judgment.
- Considering these other costs does not mean you can receive additional assistance.
- Considering other costs in the Cost of Attendance can be useful when a Financial Aid Office is trying to mitigate over award situations.

SUMMER COA:

- Summer Cost of attendance is built based upon an individual's expected length of enrollment, credit hours being attempted on a one at a time basis using the same methodology as during the school year for the various cost of attendance components.
