## **NEW ONLINE BANKING SECURITY FEATURE**

The protection of your personal information is very important to us. We are pleased to announce an added login security feature that helps guard your personal information by adding another layer of identity verification to online financial interactions.

### **How does the new security feature work?**

When logging into online banking on your computer, you will receive a message (text or voice) on your phone with a 6-digit code. You will be asked to enter this code to complete the login process on your computer. This feature takes the place of answering security questions when logging into online banking. This feature is also available in the mobile app.
